

concept package

Are you building, renovating or wanting to improve a room? If you are seeking some professional design advice; This Package is for you. It includes one on one time with a designer (1 Hr), to clarify your design questions, material selections, spatial planning, and furniture selections. I will provide you with a Moodboard (PDF) that captures the essence of your design intent.

perspective package

This Package gives you 1-2 basic 3D visuals of your cabinetry from plans provided. We understand that builder's plans and elevations can often be hard to visualise. Our 3D images will help you to put plans into perspective.

create and quote package

This design package is perfect for new builds or renovations. We will take the stress out of Planning and Design, along with Material selections by providing you with a unique design concept that is tailored to your personal taste and lifestyle.

This Package is suited for Kitchens & Wet Areas. it is the perfect package to take to cabinet makers or builders for quoting purposes.

complete package

This is a Technical design package. It is perfect for clients who require both a design concept, as well as technical design documentation. The drawings provided will give tradespeople an in depth outline of your design, taking all of the guesswork and finetuning out of the construction process.

This package includes the "Create and Quote Package" as well as a technical drawings document. Please note: Measurements are for design purposes. Final measures for construction must be undertaken by the trade.
